TAP LOCATION: \_\_\_\_\_

*If the City of Purcell determines that a road punch, road trench, or road bore is necessary, it will be the at the owner's expense. The city will offer a road punch or road trench if at all possible for **\$750.00**. Many times there will be complicating factors and added cost- the customer must verify the cost with the water superintendent and pay prior to work performed. However if a road bore is necessary the owner will have to hire a private contractor.*

*Relocation fees for a 5/8" meter are a minimum of **\$1,000**. The water department superintendent may determine that additional fees for service are necessary such as, additional water line, moving meter to opposite side of the road, boring under driveways etc.*

**The below fields are required before approval.**

Size of Tap	Cost		Size of Service Line	Material
	Total tap setup	Meter Only		
5/8"	\$ 5,071.66	\$ 4,159.89	3/4"	
1"	\$ 10,114.08	\$ 9,202.31	1"	
1 1/2"	\$ 18,739.78	\$ 17,828.01	1 1/2"	
2"	\$ 28,974.62	\$ 28,062.85	2"	
3"	\$ 52,672.58	\$ 51,760.81	Other
